STICK-A-STUD™

Item Number S 5170 BLACK
S 5170 WHITE

Stick-a-Stud™:

- Peel & Stick to most boat surfaces with 3M VHB adhesive backing
- Requires no drilling or tools to install
- Slim design, no sharp edges
- Instant tack
- UV and salt water resistant
- Can be bent and shaped to fit a variety of surfaces by bending or folding along the indented lines.

Stick-a-Studs are easy to install:

- Best results are achieved when installed at temperatures over 60°F (16°C) You can use a heat gun or hair dryer to heat the surface and the Stick-a-stud™
- Clean the surface with alcohol
- Make sure surface is dry
- Remove backing making sure to avoid touching the adhesive
- Apply firm pressure for 10 seconds
- Allow a minimum of 24 hours before use.
- Stick-a-Stud™ achieves a 50% bond strength after 20 minutes, 75% after 60 minutes, 90% after 24 hours and 100% bond strength after 72 hours

Stick-a-Stud™ is a trademark of Fia Inc.
