

top-snapper

The Top-Snapper canvas snap tool takes the struggle out of snapping your boat canvas! Experienced boaters know that putting up and removing canvas top is seldom easy. Canvas shrinks, snaps corrode, and aligning snaps can quickly become a two-person job.

The Top-Snapper boat canvas tool's two stainless steel blades slip over the snap shoulder to snap and align the snap halves. The longer blade is ideal for fastening snaps from inside the boat while the shorter blade is ideal for the outside snaps. Both blades work equally well to unsnap the snaps without tearing or ripping the canvas.

The Top-Snapper is the only canvas snap tool that will work on either inside or outside snaps.

Features:

- Makes snapping boat covers and tops easy!
- Dual blades to fasten inside and outside canvas snaps
- Both blades are ideal for unsnapping snaps without ripping your canvas
- Easy-to-grip rubberized handle
- Works on corroded snaps and shrunken canvas
- Lifetime Warranty
- item S 7800

Increase the exposure in your shop with a top-snapper counter size display pack. This informative four colour display includes 12 top snapper tools. Item # S 7801

Canvas Care Kit

All the essential parts for canvas repair in one floating case!
